Summary

Final-year B.Tech student with hands-on experience in full-stack web development and data analytics. Skilled in React.js, Node.js, Python, SQL, and Power BI. Built scalable web apps and dashboards to deliver insights. Seeking a technical internship at Deloitte to apply engineering and data skills to real-world business challenges.

Education

B.Tech, MIT College of Railway Engineering & Research 2026
CGPA: 9.1

HSC, Parimal Junior College, Latur
93.33%

SSC, JNV Tuljapur
88.8%

Skills

- HTML, CSS, JavaScript, ReactJS, Bootstrap, NodeJS, Python, Java, C, SQL, Power BI, Excel, Git, REST APIs, Data Analysis

Projects

Zomato Data Analysis using Python and Power BI

Analyzed restaurant data using Python (Pandas) and built a Power BI dashboard to explore cuisine trends, pricing, and customer behavior. Delivered insights to improve vendor selection and engagement.
Tools: Python, Power BI, SQL

Zomato-Clone Interface

Built a dynamic restaurant discovery app using HTML, CSS, JavaScript, and Bootstrap. Designed responsive UI and integrated live menu data.

Restaurant Landing Page Interface

Created a mobile-friendly landing page with HTML, CSS, JavaScript. Focused on seamless UX, navigation, and menu interactivity.
